

ROOSEVELT MEN IN A NEW MOVE.

Want in the Tent Before
the Circus Opens.

Anxious to Sit to Help Hear
the Contests.

Problem Involving the Na-
tional Committee.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHICAGO, May 29.—Word that R. B. Howell, recently elected Republican National Committee member from Nebraska, by direct primary, will come to Chicago on June 6, when the national committee meets to hear contests, and demand his seat, caused a stir today among members of the committee.

Mr. Howell is a supporter of Col. Roosevelt and was chosen as the direct primary of the successor of Victor Roosevelt, acting chairman of the Republican National Committee, whose official duty it would be to call the Republican National Convention to order on June 13 and introduce Senator Elihu Root as temporary chairman.

At the Roosevelt headquarters, it was said Mr. Howell had been advised that under the law he is entitled to immediate possession of his seat, and he will insist on recognition when the committee meets to hear the contests on June 6.

Thomas K. Niedringhaus, elected Republican National Committee member from Missouri under the direct primary, and another delegate elected, when the committee meets next week.

Roosevelt managers here declare there are at least five new national committee members who will attempt to assume their seats and enforce the question of contests is taken up by the committee.

The operation of the direct primary law in States where the national committee are chosen by popular vote instead of by the delegates, presented a new problem which the committee have to deal with either by the national committee or the national convention.

Harry S. New, chairman of the subcommittee on arrangements, said: "The term of a national committee member begins with the adjournment of the convention when the members always are called upon to meet and assume their official duty. This is in the case of the party and is as old as the party itself. There is no just demand or reasonable excuse for a departure from this rule in this case."

The time limit set by the national committee in its call for the filing of names expired at midnight last night in all the cases are now in the hands of Secretary Hayward and will be tabulated for the consideration of the national committee.

About 300 contests have been filed, of which, it is said, 235 were prepared by Roosevelt forces and thirty-five by friends of President Taft.

Sergeant-at-Arms Stone announced the appointment of William B. Austin, president of the Hamilton Club, as chief usher at the convention.

Tickets for the convention will be distributed through the national committee of the different States Monday, June 17. The tickets for the Chicagoans who contributed to the fund of \$150,000 for use in meeting the expenses of the convention will be distributed by Fred W. Upham, chairman of the Chicago committee.

Senator Burton of Ohio was mentioned as the probable selection to make the nominating speech for President Taft.

Friends of Col. Roosevelt have insisted that the picture of their candidate be given on the program of the convention hall decorations, but no action has been taken.

MONTANA POLITICS.

In Democratic Convention Clark Gets All the Good Things and Wilson Navy a Crumb.

(BY A. P. NIGHT WIRE TO THE TIMES.) BUTTE (Mont.), May 29.—The Democrats of Montana, in convention today, endorsed the candidacy of Champ Clark and elected eight delegates and eight alternates instructed to vote for him in the national convention as long as the majority of the delegation believe he has a chance to win the Presidential nomination.

The contest between T. J. Walsh, candidate for the legislature, and R. R. Purcell, which threatened to cause a split in the convention, was obviated by the adoption of the report of the Committee on Organization and Permanent Order of Business. The report proposed for name of Norris, Senator H. L. Myers and Mr. Walsh delegates-at-large by acclamation. The resolution was adopted and the delegates were selected by allowing each county, which so desired, to put in nomination one man. Those were balloted on the five receiving the greatest number of votes being elected delegates, and the eight next highest being chosen as alternates. This plan permitted the election of both Walsh and Purcell.

They Wilson delegates were in a hopeless minority, and fought for only an unsuccessful delegation. Gov. Norcross, leader of Wilson forces, admitted defeat when in his address as permanent chairman he stated that he would come to Baltimore to cast his vote as an individual preference, but to carry out the will of Montana Democrats as expressed by the convention.

Bruce Cranmer was re-elected national committee member.

THE PUBLIC LANDS.

LOS ANGELES TIMES BUREAU. Washington, May 29.—Congress is working hard on various problems affecting the public lands. Today the Secretary of the Interior virtually agreed to plans opening the coal lands of Alaska, being modifications of the regulations suggested in the Smoot bill. Both the Senate and the House committees on Public Lands expect to take up this subject this week. Sec. Fisher appeared before the House Committee on Public Lands today and advocated a leasing plan for the use of grazing lands, the lands to be reclassified every ten years. At present, he said, the West was unilaterally opposed to any plan of leasing, but the majority of the committee seemed to consent to the Secretary's views.

KENTUCKY POLITICS.

Ollie James Defeated by McCrory in Contest for Chairmanship of the Democratic Convention.

(BY A. P. NIGHT WIRE TO THE TIMES.) LOUISVILLE (Ky.), May 29.—Gov. J. B. McCrory defeated Ollie James for temporary chairman of the Democratic convention today.

With enough delegates pledged for Champ Clark to insure his solid delegation of twenty-six votes from Kentucky to the national convention, interest centered in the factional fight between the two candidates. Mr. James assumed the personal charge of his supporters and presented his own name for temporary chairman. All but two counties had voted before it was certain Gov. McCrory had a majority, and then Mr. James made the motion which elected Mr. McCrory by acclamation.

When the convention recessed there were indications that Urey Woodson, secretary of the Democratic National Committee, would have a fight on his hands to retain his place on the National Committee. Mr. Woodson instructed their national delegates to support John C. Mayo for national committee member against Woodson.

Differences.

CONTESTING DELEGATIONS.

ARIZONA REPUBLICANS DIVIDED IN ALLEGANCE.

Chairman of the State Committee, Who Is for Taft, Believes Clear Majority of State Delegates Legally Elected Will Be for the President.

(BY DIRECT WIRE TO THE TIMES.) PHOENIX (Ariz.), May 29.—[Exclusive Dispatch.] It is a fair guess that the contesting delegations will go from Arizona to the Republican National Convention, following the Republican State convention, in Tucson, June 3. The Republican political situation in Arizona today is muddled, with the Taft and Roosevelt factions working out their own plans as independently as though they confessed no common political allegiance. The contesting delegations are the attitude of Chairman J. Lorenzo Hubbell, who is for Taft with all his might, declares his belief that a clear majority of all State delegates chosen legally will be in Tucson pledged to the President's renomination. Yet he declares also that as far as his influence goes, he will cast his vote for justice is done, and that each county delegation will be seated upon the merits of its claim.

The result of the action. Each county has acted independently in the manner of its delegates. Hubbell says fifty-six of the delegates are for Taft, without reference to the contested counties.

IN MARICOPA COUNTY.

In this county, Maricopa, the struggle between the two factions has been bitter. The Roosevelt element captured the meeting of the Central Committee, assisted by Chairman Hayes, and elected a delegation to the national convention. The Taft element, claiming a majority, met Saturday and selected a contesting delegation. They claimed thirty votes, a majority. It is alleged, however, that a half dozen of these were upon proxies which had been revoked and that due notice of such proxies was not given.

The action of this committee in selecting delegates is contested by the Rooseveltians on the ground of no quorum. The county delegates elected by them claim a majority of the delegates to the State convention.

In Cochise county the contest has developed a novel situation. A decided majority of the Republican County Committee have elected delegates favorable to Roosevelt, while Chairman Gardner and Secretary Locke, who have cast their plans, gathered together in Douglas a quorum of the Central Committee and elected a contesting delegation.

The action of this committee in selecting delegates is contested by the Rooseveltians on the ground of no quorum. The county delegates elected by them claim a majority of the delegates to the State convention.

In Yavapai county there was a variation in that the opposing factions within the Central Committee elected delegates to the national convention in Prescott, but in different rooms. In both meetings a quorum was declared and the delegates elected. The delegates to the national convention were elected by the Central Committee, instructed to support President Taft.

Clark contingent had a shade the better standing in the way of organization. In the Central Committee, the Roosevelt wing claims regularity in having met in the main hall, while their opponents occupied the basement room.

Pima county's Central Committee lined up thirteen votes for Taft and seven for Roosevelt. It therefore happened that the committee selected the instructed Taft delegates to the national convention and then proceeded to make arrangements for the entertainment of the visiting Republicans next week.

In Gila county the delegates were divided. The Central Committee preferred the Roosevelt ticket, while the delegates elected by the county committee were for Taft.

On the toss of a coin for a seventh member, the Taft side won. Taft was victorious in the agricultural county of Graham, where primaries were held for four delegates. Roosevelt has the four votes from Pinal and Yuma's four votes.

In Santa Cruz county the Central Committee felt the popular pulse with returns from the election and instructed the county's two delegates for Roosevelt. Greenlee county, with five delegates, was equally divided and is claimed for Roosevelt.

In all, a claim of sixty Roosevelt votes in Tucson has been made by Dwight B. Heard of Phoenix, manager of the colonel's Arizona campaign. The delegates to the national convention will meet in Tucson, June 1, to discuss the temporary organization of the State convention, together with considering the merits of the several contests.

TOTALS VOTE IN CONVENTION.

McKinley Sees No Chance
for Mr. Roosevelt.

Says Only One to Be Cheated
In the President.

Insists Colonel Can't Carry
the Doubtful States.

(Special by Federal Wireless Telegraph Line.)

LOS ANGELES TIMES BUREAU. Washington, May 29.—Director William D. McKinley of the National Taft Bureau today said "President Taft must carry a majority of the delegates in the convention. He has carried thirty-four States and Territories in the campaign for fourteen for Roosevelt. In Republican States, President Taft has nineteen, and his delegates in the convention will represent 191 electoral votes to 171 for Roosevelt. On this showing, with the 136 votes of the doubtful States, the only candidate who can possibly be 'cheated' out of the nomination at Chicago is President Taft himself."

ROOSEVELT METHODS.

The methods by which Mr. Roosevelt's political managers now plan to 'cheat' Mr. Taft out of the nomination, if possible, are many. Among other things, they have brought contests involving the seats of approximately 275 Taft delegates, duly elected, into the convention.

STRIKE IN THE WADSWORTH.

New York May Have to Take Up
the Cafeteria Plan if the Waiters
Stay Out Long.

(BY A. P. NIGHT WIRE TO THE TIMES.) NEW YORK, May 29.—The first serious strike New York hotels have experienced, occurred tonight when the waiters of the Waldorf-Astoria, the Gotham, the Breckinridge and the Hotel New York, in the midst of the evening dinner hour, leaving hundreds of patrons in the lurch.

Approximately 400 waiters and cooks simultaneously went on strike and with those who had joined previous strikes at the Belmont, the Knickerbocker and Churchill's, make a total of more than 1200 who have actively participated in the fight for higher wages and better working conditions.

The hotel managements refuse recognition of the international hotel union, which claims to have enlisted 12,000 hotel employees, and concede nearly all the demands of the men.

Managed by a skeleton crew, the Waldorf tonight managed to serve most of its patrons, but the Gothams, the Knickerbocker and Breckinridges had no strike breakers ready for the emergency.

The strikers demand recognition of their union and increased wages. The conference decided against the following projects proposed on the floor:

The creation of a court of appeals, to be organized separate from the general conferences, to decide all questions of law referred to it by the conference and to decide appeals in the court.

The repeal of section 240 of the right of the employer to hire and fire on certain specified grounds.

The reduction of the size of the general conference.

The reduction of the number of church periodicals to four.

Remmed In. AMERICANS ALARMED. THREAT OF ORIGIN.

(BY A. P. NIGHT WIRE TO THE TIMES.) C HUAHUA (Mex.), May 29.—Americans who planned to leave Huahua following an intimation today from Gen. Orozco to American Consul Letcher that foreigners may and themselves encamped on account of the alleged partiality of the United States to the Madero government, were unable to go. The regular train from here to El Paso did not leave today, water shortage being the official explanation given.

FORMAL PROTEST. The issuance today of the formal protest to the American Consul citing the alleged recruiting by the Mexican Consul at El Paso of soldiers for the Federal cause was an instance of the supposed favoritism on the part of the United States to the constituted government across the Rio Grande stirred the foreign colony to grave apprehension.

The protest is a sequel to recent anti-American manifestations resulting from President Taft's proclamation forbidding the exportation of arms into the rebel zone. The liberals here say they are fighting for the United States. The rebels, however, are fighting for the United States. The rebels, however, are fighting for the United States.

Francisco Hospital.

Recent Arrivals from Europe
Enter Into Suicide Pact.

(BY A. P. DAY WIRE TO THE TIMES.)
SAN FRANCISCO, May 29.—(Exclusive Dispatch.) Sobbing hysterically, Mrs. W. H. Oida, young widow of Dr. W. H. Oida, a pioneer physician of Spokane, whom she slew last night, today in her cell in the County Jail declared again and again her innocence of intentional killing of her husband with whose murder she is charged.

"I didn't mean to kill my husband," she said. "I shot him when he struck my sister and I thought he meant to kill her."

"My husband's unwarranted jealousy is responsible for his death. He had been drinking when he came home last night. A moment after he entered the house the telephone rang. Thinking a man was calling me, he went into a parlor and usually talked to me. He asked me by the hair and threw me over a bed and, chiding me, bore me down to the floor. I hurt me terribly. Frightened by my cries and the noise of the struggle, my sister ran in. He turned on her and struck her. He wanted her life and I jerked loose and ran for a gun. Hardly knowing what I was doing, I fired, and he fell. I only meant to protect my sister and myself."

Mrs. Oida is 25 years old. The dead physician was 60 years old. Their married life had been stormy.

BOYS AND GIRLS
SHOW WORKS.

POLYTECHNIC HIGH PLEASES
MANY VISITORS.

Regular Class Work Supplemented
by Workshop, Art, Culinary and
Dressmaking Exhibits—Evening
Programme Includes Address by
Principal and Drills by Students.

The 2000 students of Polytechnic High School had an opportunity yesterday to show what progress they have made and to exhibit specimens of their handwork in workshop, laboratory and classroom, for it was visitors' day and thousands of proud fathers and mothers came to see and admire and commend.

Regular class recitations were conducted as usual and, in addition, each department had prepared an exhibit showing the results of the work done by its students. The military class displayed a number of fashionable headgear that would do credit to a Broadway show window. Some of the most artistic hats in the collection were made at a cost of only \$1.50 each. The dressmaking department filled two rooms with its exhibits. Handsome commencement gowns, party dresses, tailored suits, coats and opera cloaks were shown. All designed and made by girl students. One of the classes in domestic science prepared a variety of lunch and a triumph of culinary skill and economy, too, for the girls are limited to an expenditure of 35 cents per person.

The civil engineering department had a most creditable exhibit of maps of San Pedro harbor and the proposed canal. This department has been doing useful work for other city schools and has secured a considerable sum in this way. The pottery, textile and general art exhibits proved a great success. The pottery, textile and general art exhibits proved a great success. The pottery, textile and general art exhibits proved a great success.

The afternoon programme included selection by the High School orchestra, an athletic dance and drill by the girls' gymnasium club and the orchestra. The evening programme included a play by the school drama club, a play by the school drama club, a play by the school drama club.

A Trip from the Azores
Rudely Interrupted.

(BY DIRECT WIRE TO THE TIMES.)
LAKE CHARLES (La.) May 29.—(Exclusive Dispatch.) The mystery of the strange disappearance of Senora Maria Banti, wife of Manuel Silva, a ranchman on the coast of the Azores Islands to California, was solved at least in part when her husband today recognized her in a local sanatorium.

The recognition forms an important chapter in one of the most unusual cases with which railroad and State officials of Louisiana ever had to deal.

According to the woman's story she was spirited from New Orleans to Hanford, Cal. How, why or by whom she was taken off she does not know. She says she was tied in the woods for ten days. A moment after he entered the house the telephone rang. Thinking a man was calling me, he went into a parlor and usually talked to me. He asked me by the hair and threw me over a bed and, chiding me, bore me down to the floor. I hurt me terribly. Frightened by my cries and the noise of the struggle, my sister ran in. LONDON PAPERS COMMENT.

Senate Report on Titanic Inquiry
Received With Varying Emotions
By British Press.

(BY A. P. DAY WIRE TO THE TIMES.)
LONDON, May 29.—The Senate Committee's report and Senator Smith's speech are given prominence in the London morning papers, but only a few make editorial comments. The Daily Mail likens the speech to a Martin Chuzzlewit programme and says Senator Smith has buried a grave and terrible event beneath a mountain of foolish flattery, and has managed to discount and discredit the work of the Senate committee whenever he discusses technical questions.

"His notorious want of knowledge of the sea," says the paper, "renders his opinions absolutely worthless."

"Although the report sounds sensible, Senator Smith's grotesque oration deprives it of much of its value," The Daily Chronicle says.

"The report does not benefit by Senator Smith's association with it," The Chronicle recommends the British public to withhold judgment until Lord Mersey's report is published.

The Daily News admits that some of the conclusions are irresistible and very disturbing.

HURLS PACKAGE AT TAFT.
Chief of Secret Service Investigating Act of Vandal Toward President in New Jersey.

(BY A. P. DAY WIRE TO THE TIMES.)
RUTHERFORD (N. J.) May 29.—Chief Willie of the secret service has been conducting a quiet investigation here into an attempted attack on President Taft which occurred while the President was speaking in the public square on Saturday night. Mr. Willie put through the third degree an Italian who is said to have thrown a package which struck the President in the face. Thus far no arrest has been made.

A statement given out by Frank M. Buckles, leader of the Taft organization here, regarding the Italian's attack, says:

"The 12,000 persons assembled in the public square were disappointed in not hearing the President speak because of the act of a vandal. As the package struck the President's face or came down scraping his face."

Several days ago Goularte was notified that a supposed Senora Goularte was in a local institution. The woman was found wandering in a field near Welsh, La., in a pitiable condition. At first she could not articulate. The woman was found wandering in a field near Welsh, La., in a pitiable condition.

Goularte is at a loss to explain the attack and physicians say Senora Goularte will be able to tell what happened.

MOTIVE NOT EXPLAINED.
An examination of the woman neither proves nor disproves suspicions the authorities have entertained. The woman has a comparatively small amount of money and it is thought robbery cannot have been the motive of her attack. There are other reasons, but it is admitted these may have been accidental.

The woman was almost nude when discovered and was near death from exposure. The body of the woman is being held in Hanford as a material witness. It is understood here that the woman seems to be sane. She even tells the vicinity where she was kept prisoner and does not know how far she had gone. She says she was taken to a small boy at Welsh, who turned her over to a local constable. Although she speaks no English, she says she is from America, as well as Goularte is almost mad for vengeance upon the men supposed to have mistreated her.

His present plan is for the two women to return to their native land. The interrupted journey to California.

he was about to speak, but the secret service men pushed him back in his seat and took charge of affairs. They ordered the car ahead at full speed through the crowd, not knowing what was in the paper and got away. Later they informed me that the paper had been soaked in water to make it heavy."

REALTY BOARD PROSPEROUS.

Membership Is Increased Almost
Fivefold in Year—Surplus in Treasury
Despite Decline.

Three new members were added to the governing committee of the Los Angeles Realty Board yesterday afternoon when that organization met in the Realty Board building. Those added were Mr. W. C. Bundy and Dr. Peter James. Mr. James will meet with the rest of the committee next Monday at which time the governing body will elect the officers of the board for the coming year.

Following the selection of the committee, the president and secretary of the board read reports of the year's work. Both reports revealed a prosperous condition in the affairs of the organization. In the report of the secretary it was brought out that the membership had been increased from 195 active members to nearly 500 members in a year, and that the treasury boasts a surplus, notwithstanding the expenditure for the furnishing of the new board quarters and for other purposes.

Lux Orientalis.

LIGHT FROM THE EAST
ON THE LIVING ISSUES.

(SPECIAL BY FEDERAL WIRELESS TELEGRAPH LINE.)

LOS ANGELES TIMES BUREAU,
New York, May 29.—The following editorial comments on topics of the hour are printed today in Eastern papers.

DISAPPOINTMENT TAFT MEN.
CONTEST BECOMES CRITICAL.
The New York Tribune:

ARTER NEW JERSEY.
The loss of most of the New Jersey delegates by President Taft indicated by the returns up to midnight, with inevitably disappointed his supporters, who had hoped for a turn in the tide recently running against him, and will correspondingly cause the followers of Col. Roosevelt. It will also make the contest at Chicago more critical and strenuous than seemed possible up to a few days ago.

It is evident that the President's renomination depends on the support in line the delegates so far accredited to him and winning a majority of the vote. The temporary roll of the convention must be prepared with the greatest care. The President's establishment precedents, and to party leaders, and if when it has been so prepared, it shows a majority in the convention, Mr. Taft, no building tactics will be allowed to deprive him of control and a renomination.

MAKES GODS WEEP.
SPECTACLE TO BE DEPICTED.
The New York Sun:

NEVER AGAIN IN COLUMBIA'S
LAND.
With the close of the New Jersey primary campaign comes the end of a spectacle fit to make the gods weep and self-respecting Americans hang their heads in shame. The disgrace of a stump contest of Presidential renomination between the President and the man who has been his opponent for years is never repeated. The man who has been his opponent for years is never repeated.

There are two ways in which the nation may spare itself and the country the spectacle of a contest of this kind. The first way is to elect a President who will not be re-elected. The second way is to elect a President who will not be re-elected.

Westmoreland Place
The Incomparable
Residence Park

Reasons Why This Close-In
Secluded Beauty Spot is the
Most Desirable Residence
Property in
Los Angeles

Westmoreland Place is the highest class residence property in Los Angeles—only ten minutes auto distance from Broadway skyscrapers, and yet is as secluded, restful and picturesque as though it were miles away in the far-out suburbs.

Westmoreland Place is a private residence park of 40 acres, set out years ago to the rarest trees and shrubs. No waiting for trees to grow—they have already attained mature growth, and present a wealth of semi-tropical splendor unequalled elsewhere in Los Angeles.

Westmoreland Place has every utility improvement of most up-to-date character—the best types of residential architecture in Southern California—most artistic and effective boulevard lighting system—and the advantages of a brilliantly-lighted thoroughfare all the way to the business center—the Broadway lighting system having been extended out Pico to the entrance to Westmoreland Place.

To the man who desires to economize his time spent between home and office—who appreciates the many practical advantages of living near the business, theatrical, church and school centers—and yet who desires scenic beauty—exclusive, slightly elevated location—magnificent outlook—and assured freedom from every undesirable intrusion—to the man with such home ideals—Westmoreland Place will prove the fulfillment of his every desire.

The price of Westmoreland Place is surprisingly low—considering the character of the property. It is worthy the investigation of every family desiring the best there is or can be in Los Angeles residence property.

Westmoreland Residences
FOR SALE

Three of the finest residences in Westmoreland Place—for sale on extremely favorable terms. For detailed information about these residences or Westmoreland Place, see any of the following owners:

COST OF MANUFACTURING AND DELIVERING ICE
FACTS THAT ARE BASED UPON EXPERIENCE.

Interesting Statement by W. G. Eisenmayer, Assistant Manager Los Angeles Ice and Cold Storage Co.

Impressions, not facts, move men when theorizing. Of the business, it is easy to say, "All companies make great profits." Without knowledge of the expense of the business, many people state municipal ice plants. You can hear these same people advocating a municipal department store or a municipal hardware store, notwithstanding the fact that the ice companies' investment will probably equal the investment of either of the two kinds of business, and the common belief that both businesses are profitable. Over the United States, ice companies have failed than have succeeded. Today promoters are trying to sell stock for a new ice company in this city. They offer for cumulative preference stock, the common stock. The preference shares are entitled to a preferential dividend of 8 per cent, and the promoters are so worded as to give the investor the right to vote at the stockholders' meeting. At the same time, the promoters still another dividend will be paid.

Now for facts: No ice company in this city has ever paid an 8 per cent dividend. This new company advocates a selling schedule on ice delivered in practically the entire downtown district in quantities of 5 blocks or over at 15c per hundred pounds; for the same quantity on side of this district, of 30c per 100 lbs.

I doubt if any ice company in this city, on a basis of 30c per 100 lbs. per year, manufactures ice under \$10.00 a ton. There are months when the delivery cost within the city averages over \$4.00 a ton. For delivering 100 lbs. of ice within the 15c district, the new company would receive \$2. This includes the cost of material, the cost of delivery.

To do this work requires the services of two men and oftentimes a third. The entire time consumed will be about two hours. If the ice is delivered 6 miles away from the factory, \$3.00 would be paid for the goods and half a day's time would be required for the trip. Summing up, living human beings can sell ice in these figures in the city of Los Angeles without loss.

In Los Angeles 8 years ago ice was sold at rates varying from 35c per 100 lbs. to 60c per 100 lbs. In some cities of 100 lbs. or under. Last year in Chicago, where most of the ice sold is natural ice, which costs less on the wagons less than half the price cost in this city, ice was sold at the rate:

In 3000 lbs. lots for 20c per 100 lbs.
From 1 ton up to 3000 lbs. for 25c per 100 lbs.
From 1000 lbs. up to 1-ton lots for 25c per 100 lbs.
From 400 lbs. to 1000 lbs. for 30c per 100 lbs.
Under 400 lbs., 30c per 100 lbs.

In Chicago no delivery wagon goes in a straight line a greater distance than two miles from the loading place. Here there are few delivery wagons. In Los Angeles, however, many of our wagons go four miles before serving their first customer. In Chicago two horses are probably ample for any wagon. Here, on the other hand, three horses are all of the outside routes four. Then the sale per wagon averages two to three times the sale per wagon in Chicago.

What are the facts? With ice at cost of less than half what it is in Los Angeles, and with a delivery cost much less than the Los Angeles cost, the trade in Chicago pays more for ice than it does here. Family ice is cheaper in Chicago than in Los Angeles. Based on pound sales, but the difference in cost of delivery between the two cities is a distance of two miles and here, where practically no family ice is sold except beyond that distance, offsets any difference in price. Now, on the basis of the above facts, ice is sold in Los Angeles.

HER AILMENT
A COMMON ONE
Happy Experience of Mrs. D. Linger, Who Finally Found Relief in Cardui, the Woman's Tonic.

West Baden, Ind.—"For about two years," says Mrs. Sarah Dinger, of this place, "I suffered with an ailment common to women, and I was so poor that I could not do my work."

"Since taking Cardui, the woman's tonic, I am stout, and able to work as hard. It is certainly a great tonic for women. I recommend it to all great many ladies."

"My daughter is now taking Cardui, and it seems to be helping her very much, although she has now taken only one bottle."

Cardui is the best medicine I ever took. It has done me so much good that I saved my life, and I can't praise it too much."

Many women would always be Cardui ready, for use when needed, and the knowledge that it gives the body and brain strength and vitality.

A few doses of Cardui, at the right time, will often save much suffering, preventing a more serious attack.

To relieve pain and misery, due to many troubles, nothing has been so good, during the 10 years that I have used it, as before the public to take some of Cardui.

Don't you try it? Write to: Ladies' Advisory Committee, 1000 Broadway, New York City, for Special Instructions, and for "Home Treatment for Women," which is sent free on request.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

San Diego.

Called Away BY BUSINESS.

Attorney General Leaves San Diego Suddenly.

Probe to Be Continued by Deputy Benjamin.

Court Refuses to Release Prisoners After Plea.

BY DIRECT WIRE TO THE TIMES.

SAN DIEGO, May 29.—[Exclusive Dispatch.] Leaving his assistant, Raymond Benjamin, here to continue investigation of local I.W.W. charges, Attorney General U. S. Webb left this afternoon for San Francisco. According to Attorney Benjamin, the Attorney-General expects to return Saturday.

The departure of Mr. Webb was in response to a telegram calling him to San Francisco to prepare papers in an important suit pending before the Interior Department at Washington in which the State is interested. Attorney Benjamin stated yesterday afternoon that full details of the incident pertaining to the deposition of Editor A. R. Bauer of the Herald was recited to the Attorney-General by Bauer.

According to Benjamin nothing as to what action the Attorney-General expects to take in connection with the Bauer matter is to be given out at present. Attorney Benjamin stated yesterday afternoon that full details of the incident pertaining to the deposition of Editor A. R. Bauer of the Herald was recited to the Attorney-General by Bauer.

Attorney Benjamin said so far as he knows no programme for tomorrow has been outlined. He said he would remain here and look after the interests of the Attorney-General when he returns. When told that it was reported the present grand jury was not indicted to be dismissed before it finished its work, Attorney Benjamin said he had heard nothing direct from the grand jury and that its dismissal was a matter for the judge of the Superior Court commanding the grand jury to decide.

MOORE MAY TALK.
Before his departure, Attorney-General Webb held a conference with Attorney Fred H. Moore and Mr. W. R. Robbins, representing many members of the Industrial Workers of the World, but no statement regarding the meeting could be obtained from either side.

Attorney Moore said he might have something to say in twenty-four hours or in forty-eight hours, but he declined to say why he might make a statement at that time instead of at present. Chief Deputy Benjamin said he could not tell why the I.W.W. attorney should have such a statement.

FAILED TO CONVINCE.
Attorney Fred Moore's arguments in Superior Court this morning failed to persuade Judge W. R. Guy to release on their own recognizance the defendants in jail awaiting trial on charges of criminal conspiracy to violate the street-cleaning ordinance.

More pleaded that the men had been confined since February 9 and that because of the length of their confinement they have not been given a trial. He said that he would vouch for all of the defendants in jail if released. The court, however, refused to release the men. The request was denied. It was opposed by Asst. Attorney General D. McKee, who informed the court that the men had been brought to trial. He charged that the men were responsible for other persons who were arrested and held in custody. McKee also stated that the men were responsible for the arrest of other persons.

McKee stated to the court that the men had considerable difficulty in obtaining one of the defendants who had been out on bail into court for arraignment. In denying the request, McKee would not justify his ordering release of the defendants.

More then pleaded for an early arraignment of the cases. He succeeded in having the men released on Friday, May 21, at 10 a.m. The defendants were taken to the clerk this morning when they were taken to the court. The men were taken to the court by the clerk. The men were taken to the court by the clerk.

BUMPER CROP OF APRICOTS.

Ventura Growers Are in State of Delight Over the Crop, Which Is Unusually Large.

VENTURA, May 29.—Apricot growers predict a bumper crop of apricots in the county this season, as well as in the State. A local grower recently returned from a visit to the fruit sections north and south, and said in his opinion the State crop this year would total 20,000 tons of dried apricots as against but 8000 tons last season.

In Southern California the crop is more spotted than in the North. Santa Clara will turn out a huge crop, while in Orange county the yield will not be as heavy as in other sections of Southern California. In Ventura county the yield this season will foot up 2000 tons, while last year it was but 3200.

There are on hand in this county some 200 tons of the crop of last year, while another 100 tons of unsold fruit are in the East and under contract. The crop of the past season, while starting out with a great flourish at a fancy price, moved slower and slower as the season advanced, until now the price is down and even under these circumstances movement is slow.

The 200 tons of holdover fruit is giving the growers some uneasiness, who see in it a menace to the price of the new crop coming on. There is an association of growers in the county, started at the beginning of the season, that the start there was over the State and this had the effect of sending the prices sky-high. The inclination was to keep them up as high as possible and this, it is stated, was one of the reasons the movement was slow and in a measure accounts for the 200 tons of fruit being still unsold.

WILL WED.
Cards are out announcing the wedding of John M. Arnell of this city to Miss Mary Baker, the date being fixed for June 11. The young people are both well known in this county and are popular. Miss Mary Baker is a graduate of the local High School and of Berkeley University. After leaving the latter institution she taught history in the Arcadia High School for a term. Mr. Arnell is also a graduate of the university taking a term in the agricultural department of that institution. The young people will settle down for ranch life near Oxnard after July 15.

Arrowhead, pure air and water.

BROKEN BACK PROVES FACT.

RIVERSIDE MAN SUCCEEDS TO INQUIRIES RECEIVED.

Woman Who Has Been Principal of High School for Past Nineteen Years Is Ousted by Recently Elected Board of Education. Frank Miller Will Appeal Case.

BY DIRECT WIRE TO THE TIMES.

RIVERSIDE, May 29.—[Exclusive Dispatch.] William Nunn, aged 19, who rode his motorcycle into the rear of a trolley, returning from the Urbis Springs picnic, and suffered a broken back, died in the City Hospital tonight.

He was adjusting the carburetor of the machine and failed to see the trolley. Miss Eugenia Fuller, well known in the California educational world, will sever her connection with the Girls' High School with the close of the present term. Miss Fuller has been principal of the Riverside High School for nineteen years and has brought much fame to the local institution as a result of her long and successful career.

The change in the principalship of the school is due to the attitude of three members of the Board of Education, who were placed in office last fall. They were elected on a platform which many understood to be in opposition to retaining Miss Fuller.

Under the new law, which requires that a teacher be retained unless refused by the board, the members opposed to Miss Fuller saw their time to move had come, and after asking for her resignation and receiving her refusal, instructed the clerk to notify her that she would not be again employed.

There is considerable feeling apparent in the community. The board is divided, as well as community sentiment, generally. Miss Fuller's successor has not been announced.

MILLER WILL APPEAL.
Frank A. Miller of the Glenwood Mission is discussing here today the decision handed down by the State Supreme Court yesterday, affirming the constitutionality of the eight-hour law.

"While complying with the State law, I shall appeal the case on the ground that the law is unconstitutional, as applied to women working in hotels, because it applies only to one-tenth of the women engaged in domestic service, and they are the highest-paid for least work. Were this law as fair as the Roseberry act, it should not complain. That is a severe statute, not holding any employee responsible, but bears evenly on every employer, great or small."

"When asked to fight this act I declined because I was willing to give a trial to any law resting equally on everybody. This law affecting domestic service is as unfair as one compelling a mother not to work over eight hours in case of sickness, or for a birthday celebration."

"The law means the best of the best jobs must be given to men and eliminates women from responsible position."

VISIT ANNOUNCED.
Mayor Peters announced today that General Manager Paul Shoup of the Pacific Electric would be in the city this afternoon for the week for the purpose of looking into the matter of widening the approach to the Main street subway.

At this time the city is contemplating the appointment of a man to take up with him the question of the location of the car shops will get into conference with the general manager.

FOURTH OF JULY PLANS.
At a meeting of the Fourth of July Committee, last evening, it was decided to expand the sum of \$1500.00 to parade floats and fireworks. A marathon race is another feature planned. Philip Zeyouma, the Sheraton hotel, will lead who won the Times Modified Marathon in Los Angeles, and Paul Westerlund, will probably be the principal contestants in this event.

San Bernardino.

ADVOCATE OF BETTER PARKS.

Mayor of San Bernardino Launches a Movement.

Suit Begun to Open Up Canyon to the Public.

Oranges Will Be Shipped to Portland for Elks.

SAN BERNARDINO, May 29.—Mayor J. S. Bright has come forth as a strong advocate of more parks for the city. In reviewing conditions, he shows that the city's income under his administration has been \$20,000 under the year previous to his election, but by economy, the city government has managed to pull through without using red ink.

In speaking of the future, the Mayor states that this coming fall he will urge the purchase of several acres in the northwest section of town for park purposes.

Mayor Bright wants a genuine children's playground, and believes that the city should buy for the future, when parks are considered. The city is growing by leaps and bounds, and large opportunities for providing land for park purposes without large expenditure have gone by, but with steadily increasing value it is anticipated that to continue to delay such purchases would be to repeat the mistakes of the past.

Mayor Bright is one of the boosters in the new civic society, and expects the full support of the new organization in planning a park. He makes San Bernardino a city of parks, the plan being to eventually provide a substantial park site in each section of town, and the northwest section will be the first to acquire playgrounds.

SUITE OVER HIGHWAY.
Dir. Atty. R. E. Goodell today brought suit in the Superior Court for the county against J. J. Doyle and C. T. Doyle to enjoin the two defendants from maintaining a fence across the road leading across the Doyle ranch in Devil Canyon. It is declared that the road belongs to the county. Doyle denies this and expects the gate in order to prevent the Southwestern Power Company from hauling materials through the canyon, in erecting the towers for the high power line between this valley and Bishop. In Inyo county, Doyle has now a suit pending against the company, by which he seeks damages for alleged trespass upon the road, and for felling trees.

PASTOR RETURNED.
Rev. W. A. Mittman, pastor of the Salem Evangelical Church, returned today from the conference at Porterville with the news that he has been transferred to the Santa Monica county, the charge here being filled by the appointment of Rev. G. Seeger. Mr. Mittman has been here two years, during which time he has become very popular. Other changes of interest are: Rev. W. J. Schmalz, pastor of the First Lutheran Church, from Los Angeles to Porterville; Rev. J. H. Schuch, from Porterville to San Diego.

ORANGES FOR ELKS.
Four cars of oranges from the citrus belt are to be distributed by the citrus belt Elks at Porterville during the reunion next July. The oranges included in the citrus belt organization are San Bernardino, Redlands, Pomona, Santa Ana, Pasadena, Whittier and Riverside. The Chambers of Commerce, municipalities, and counties within the citrus belt are located are to supply literature, and a general advertising campaign will be carried on. W. Monahan is now busy engaged in securing pledges of oranges.

ASSAULT BY ROBBER.
Mrs. Ellen Smith, an aged woman, was struck on the head by an unknown assailant while seated in the yard of her home last night, and since then she has been in an unconscious condition. While the thieves were on the house, last night, robbers looted the Smith gun store, securing eighteen revolvers and other articles. While the thieves were on the house, last night, robbers looted the Smith gun store, securing eighteen revolvers and other articles.

PERJURY CHARGED.
A warrant was issued here today for the arrest of Arthur J. Stokes of Garden Grove, charged with perjury in swearing to the age of his wife, who is Lillian M. Lewis of Long Beach, aged 16, who was declared to be 18 years old when she secured her marriage license. The marriage occurred April 9. The complaint was sworn to by the father, Stokes, who was arrested this forenoon at Santa Ana.

ANOELENS TO WED.
A license was issued here today to John Louis Kroeger, native of Nebraska, age 28, and Irene Spangler, native of Michigan, age 27, residents of Los Angeles.

Arrowhead, pure air and water.

FULLERTON NOTES.
FULLERTON, May 29.—The contract for the construction of the Baptist Church has been let and excavation for the foundation will be begun this week by J. C. Shepard. The church will cost \$20,000.

The orange ranch of C. E. Vogele has been sold to J. A. Clark for \$5500. It consists of five acres, well improved.

L. C. Vanderburg of Whittier has bought the Elgin ranch for \$6500. It has ten acres, seven in oranges. Postmaster Edward W. M. L. Scale has returned from Grass Valley, where they attended the grand lodge of the Knights of Pythias.

The Santa Ana High School has sold the Fullerton basketball team to the Fullerton basketball team. The team was sold for \$1000. The team was sold for \$1000.

LLOYD GETS THE PLACE.

Santa Barbara Man Is Made County Assessor and President of Normal School Directors.

SANTA BARBARA, May 29.—Hon. Clio L. Lloyd, former Mayor of Santa Barbara, yesterday was appointed County Assessor succeeding Thomas R. Davis, who died suddenly a week ago from heart failure. The appointment followed closely another signal honor bestowed upon Mr. Lloyd, when on last Saturday he was re-elected president of the board of directors of the State Normal School of Manual Arts and Economics in this city.

There were nine applicants for the position of County Assessor, each one of whom was looked upon as eligible, but the supervisors chose Mr. Lloyd on the third ballot, and he assumed the duties of the office immediately.

At the annual meeting of the Normal School board there was no opposition to Mr. Lloyd's re-election as president. He told the members that he would take the responsibilities for another year and unanimously elected him. During the year more than \$100,000 will be spent on new normal buildings and the work of the president will be very important.

Several years ago Mr. Lloyd was appointed clerk of the State Assembly, and in 1909 was elected Mayor of Santa Barbara. He was not a candidate at the last election to succeed himself.

Mr. Lloyd has been a life-long resident of Santa Barbara, and his many successes have been greeted with hearty congratulations by his many friends.

CITY PROUD OF ITS FLYING SON.

SANTA ANA GIVES GLENN MARTIN A DIAMOND MEDAL.

Operahouse Filled With Neighbors and Friends of the Daring Aviator—Flood Damage Suits Against Pacific Electric App Dismissed by the Plaintiff.

BY DIRECT WIRE TO THE TIMES.

SANTA ANA, May 29.—[Exclusive Dispatch.] Hundreds of Santa Anas gathered at the Grand Operahouse tonight to do honor to Glenn L. Martin, the Santa Ana aviator, now famous as the man who flew from the mainland to Avalon, breaking all across-water records. Martin was presented with a diamond medal as a mark of appreciation of his success.

Martin flew into town this afternoon in his aeroplane to attend the function. He came from Newport Bay, where he has been operating a hydro-aeroplane. He removed the pontoons from the biplane, put on wheels and thus transferred the craft from a hydro-aeroplane into a land machine. It took the aviator just ten minutes to reach Santa Ana, where his coming was a surprise.

He circled the town and landed. The reception was given to him by his townsmen, the handsome medal being the gift of the Santa Ana Chamber of Commerce and Merchants and Manufacturers' Association. Mayor Frank Fry presided during the presentation. The presentation of the medal was made by Dr. H. E. W. Barnes, who was the "stork" when Glenn Martin first appeared upon this earth at Mackabach, Iowa, on January 17, 1886. The planning of the medal upon the tall athletic aviator, an old doctor was an impressive moment.

Following solos by Francis J. Haynes, Roy Knabenshue, Martin's honor guard, and a band of aviators. After the programme in the auditorium of the operahouse, Martin shook hands with his townsmen and received their congratulations.

Martin was honored tonight as no other favorite son of the city has been honored. His success as an aviator has come rapidly and his career has been watched with great interest here. In 1910, while in the automobile condition, he was killed. He was a shy, dangerous craft, how dangerous Martin did not know until he took his machine to Dominguez and entered the 1911 meet as a novice.

Martin built a new machine, started an aeroplane factory and in a few months' time he was flying with the best of the aviators. The reception tonight came as a recognition of Martin's success as an aviator. The date of that trip, May 15, and shows in miniature upon one side Newport Bay, where the start was made, and on the other Avalon, with an airship between them.

MARRIAGE LICENSES. John F. Stout, 35, and Angeline Manington, 24; C. C. de Mandel, 47, and Ida M. Stanislaus, 26; Fred Cleveland, 25, and Florence Hall, 18; Ross Gill, 39, and Nora V. Washington, 36; John E. Ellis, 37, and Adella H. Campbell, 21, all of Los Angeles; James P. Sealey, 22, and Laura A. Young, 18, both of Santa Ana; Ray Miller, 23, of Pomona, and Maude H. Vipond, 21, of Santa Ana.

Spend Memorial Day at Michillinda

"Loaf and invite your soul" among the towering trees of this beautifully located natural park. Take your family and a big lunch basket and spend the day in the open.

In the quiet seclusion of Michillinda, away from "the madding crowd" that will throng the beaches, you can fill your lungs with the fragrant air of the foothills and forget the cares and worries of everyday life. Board Monrovia or Glendora car at the P. E. Station, and a 25-minute ride through the orange groves brings you to El Nopal Station. The Italian water garden (now under construction which meets your gaze marks the entrance to Michillinda, the most superbly located living place in the South-west.

Michillinda is close to Henry E. Huntington's magnificent estate on Huntington Drive. Take Monrovia or Glendora car at P. E. Station—get off at El Nopal Station. Note the glorious location, the hundreds of age-old trees, the completeness and high character of the improvements. Then mark the low price of lots—large villa sites, 90x200 feet, for as low as \$1500. For information regarding the property see the James B. Forbes Co., 905-8 Security Building, Los Angeles, F4203.

AN OLD STORY.

A Los Angeles girl has filed suit for divorce from a German Count. These no-count Counts make atrocious puns and worse husbands.

GETTING ACQUAINTED.

Two clergymen at Scranton, Pa., have recently renounced the pulpit for the stage. They will now have an opportunity to meet some of their former parishioners.

THE RIGHT VIEW.

Mildred Bridges, a victim and devotee of Arthur Evelyn See, is said to have persuaded her father to try to save See from the penitentiary. If his motives were the saving of other convicts from See they would be truly worthy.

A SURPLUS.

Harry Frick must be expecting a good deal of company at his house. He is building a \$3,000,000 residence when he cannot possibly occupy more than one room and one bed when he goes home at night. The fact is most men who can afford palaces live at clubs.

HAPPY ON THE WAY.

Ohio women are in a fair way to win suffrage. The Legislature of that State will give the people an early opportunity to vote on the big question. They have just finished a great campaign of education for the persuasion of the Constitutional Convention and this should give them a large advantage in preparing for an election.

RAVE MEN.

Bishop Earl Cranston and Bishop John Hamilton will be retired automatically, by reason of having passed their seventy-third year, at the 1912 general conference of the Methodist church. Both men are known and loved throughout the West, where they have done excellent work. Cranston's son has served Denver as United States District Attorney.

A GREAT PEOPLE.

A never before have the Chinese better illustrated the temper of the individual members of the new republic than by the willingness of every official and even of the private soldiers to cut their wages to the last possible living sum in order to save the government the price of what the common-sense high rate of interest on the proposed national loan. This absence of the graft spirit is an example to all the world.

WELL TAKEN.

Through eastern periodicals Judge Curtis D. Wilbur has arranged the State of Illinois in a remarkable indictment because the Supreme Court of that commonwealth rendered a decision describing the Bible as a sectarian book, no part of which may be read in the public schools. The point of exception to such a decision is admirably taken. So much of all law and literature have been inspired by the Bible that to be in ignorance of its contents is to be without the greatest light available to man. It is the world's epic and to bar it from the public schools is judicial crime.

PUZZLES IN STONE.

Local scientists question the genuineness of a stone peach and lemon recently brought to this city which are said to have been discovered at the summit of Pike's Peak and supposed to be petrifications. Nothing about the formations suggested such a phenomenon. In springs and caves where the walls are made of calcareous material, a sort of petrification of objects takes place, but it would certainly be most unlikely to occur on the summit of a mountain. This process is really not one by which an egg, fruit or a bit of metal are turned into stone by being deposited in a spring or left exposed to the exudations of a damp cavern. It is only a plating of carbonate of lime deposited by the chemical laboratory of nature upon the object. Men imitate this process in their gold, silver, nickel and copper plating of utensils and ornaments. Carbonate of lime, acted upon by water containing carbonic acid, becomes soluble by carbonate of lime. By evaporation the carbonic acid disappears and the carbonate of lime becomes deposited on objects suspended in such a spring or attached to a wall of such a cave. It is through this simple process that stalactites are produced. One drop of soluble lime becomes solid through evaporation. At the end of that solid dot another is made and through the ages the caves of a thousand wonders are thus made by a drop of water and a particle of lime.

True petrification is the substitution of parts through a different process. The petrified forest of Arizona is one of the most remarkable examples of this chemical action. In this case the enormous pressure of millions of tons of rock and earth, combined with silicious material deposited over trees long buried under volcanic debris, together with the presence of tufa, which is a volcanic material, are the agents which have produced the great phenomenon. Through the agency of water tufa decomposes and liberates silica. This silicious solution penetrates the wood buried in the tufa and is deposited so slowly in all the cells of the wood that as the body of the timber decomposes, the silica takes its place in filling the fiber and the result is a silicified forest. This is the only true petrification. It will be recognized at once that fruit left on the surface of the earth for a few years could not possibly pass through such a process.

MEMORIAL DAY.

Today in a thousand cities and villages of the republic orators will tell how the assault on Sumter in April, 1861, started the slumbering North. How it leaped to its feet with the war cry of the revolution upon its lips. How farmers left the plow in the furrow. How mechanics dropped their tools at the bench. How clerks dropped the pen or the yard stick. How millionaires tossed their fortunes into the vortex of battle. How tramps and preachers jostled each other on the road to the recruiting office and armies sprang into life equipped for battle.

They will tell how the Union forces unweaved the current of the Mississippi; how they battled along the clouds at Lookout Mountain; how they sang the mighty chorus from Atlanta to the sea; how they anted their battle hymns before the gates of burning Richmond; how they carried our banner, blood-spotted and bullet-shredded, but flying still, triumphant still, over every inch of American soil.

The military problems presented by the Civil War were less difficult of solution than the problem of reconstruction which succeeded the war. In the storm of anger which was engendered by the assassination of Abraham Lincoln, the Southern States barely escaped being wiped off the map. Thaddeus Stevens proposed to reorganize the Southern States as Territories, with existing boundaries and State names obliterated, and to govern them as conquered provinces for a period of years until the growth of a new generation should give assurance that they might safely be readmitted as States of the Union.

Fortunately for them and fortunately for the nation, wiser and more generous counsels prevailed. The South admitted that the doctrine of a right of secession had been shot to pieces on the battle field. It reluctantly conceded that State sovereignty was subordinate to Federal authority, and that a minority must submit to the control of a majority. The North harbored no resentments. Grant expressed the national feeling when he told Lee's soldiers to keep their horses and go home and plow their fields with them. The Federals said to the Confederates, "Free your right hands by dropping your muskets and let us shake."

Reconstruction was delayed for a time by the unwillingness of the slaveholders to give up slavery. They had staked the negro upon the wages of battle and lost him. Then they tried to recover the stakes by means of black laws and vagrant laws and laws of peonage. But the war had transformed millions of Republican voters who, in 1860, "did not wish to interfere with slavery where it existed" into millions of abolitionists who in 1865 would not suffer slavery to exist anywhere under the Stars and Stripes.

Attempts to avoid the effects of the Emancipation Proclamation were met by the Thirteenth Amendment. Attempts to avoid the Thirteenth Amendment by black laws were met by the Fourteenth Amendment. The enforcement of the Fourteenth Amendment was aided by the adoption of the Fifteenth Amendment. The operations of the Ku-Klux Klan were ended by Force bills. Finally the former slaveholders gave up further attempts to obtain without compensation the labor of the black men, and contented themselves with discouraging his exercise of the right of suffrage attempted to be conferred upon him by the Fifteenth Amendment.

The South has grown rich during the last twenty years mainly from her increased production of cotton. Her negro laborers are docile. They never strike. They never organize into labor unions. They have ceased to take any interest in politics. Their labor is cheaper and more available than it was during the days of slavery. Anarchy and Socialism are plants that do not flourish in the Gulf States. The South is peaceful and prosperous. That peace and prosperity may continue to abide in her fields and marts is a prayer in which none will join more heartily than those who nearly fifty years ago helped to make of the southern cause a lost cause, a cause the losing of which was one of the greatest of gains to the losers.

CANAL LEGISLATION.

The Central Railway Company of Georgia owns nine large steamships plying between Savannah, New York and Boston. The New York, New Haven and Hartford Company owns eighteen steamships which ply in Long Island Sound. The Southern Pacific owns twenty-five vessels running between New York and New Orleans and between Pacific Coast points. The Great Northern and Northern Pacific Companies own vessels on the Great Lakes and many coastwise coal carriers. The government as owner of the Panama Railroad owns four large steamships. Under the canal bill as it now stands all of these vessels, except the four government steamships, would be excluded from the use of the canal.

The Canadian Pacific, the Grand Trunk and the Canadian Northern own and operate steamship lines. All three of these roads would then be compelled to determine whether prospective traffic through the new canal would amount to more than their present traffic arrangements in the northern portion of the United States. If they should decide in favor of the canal, they would then withdraw all their American tariffs and the northern part of the United States would be deprived of the competition of the Canadian railways. This situation would directly affect New England, all the Great Lake cities and Puget Sound.

The Washington correspondent of the Boston Monitor says:

"If Congress should finally adopt section 11 of the pending bill relating to railroad-owned ships the Canadian railroad would then be compelled to determine whether prospective traffic through the new canal would amount to more than their present traffic arrangements in the northern portion of the United States. If they should decide in favor of the canal, they would then withdraw all their American tariffs and the northern part of the United States would be deprived of the competition of the Canadian railways. This situation would directly affect New England, all the Great Lake cities and Puget Sound."

What the Canadian roads would do if confronted with such a situation nobody can tell.

The result of the New Jersey primaries indicates that the Presidential nominee will be named by the Chicago convention.

Comrades Still.

THE GREATEST GOOD TO THE GREATEST NUMBER.

Three years ago the State Legislature passed a law providing for the sale of bonds to furnish money to build a system of State highways reaching from the Oregon boundary to the confines of Mexico. The act referred to was approved March 22, 1909. From this law we quote the following short passage outlining the purpose for which it was passed:

"The route or routes of said State highway shall be selected by the department of engineering, and said routes shall be selected, and said highway so laid out and constructed or acquired as to constitute a continuous and connected State highway system running north and south through the State, traversing the Sacramento and San Joaquin Valleys and along the Pacific Ocean by the most direct, and practicable route connecting the county seats of the several counties through which it passes, and joining the centers of population together with such branch roads as may be necessary to connect therewith the several county seats lying east and west of the highway."

Notes that the selection of the route and the laying out of the highway and its construction was placed in the hands of the engineering department of the State government with the express provision that the selection shall be made in such a way as to provide the most direct and practicable system of highways through the State. Let us focus our eyes on two words in this provision of the law, "most direct and practicable."

There the route is marked out and the engineering department must follow it or those who do the work must violate their oaths of office and betray the interests of the people. The State officials charged with the performance of this important duty are really without any choice. They are sworn to follow the route most direct, that is the shortest and most practicable, constructed at the lowest cost.

The law was made for the benefit of all the people, each resident of the State of California to receive therefrom the highest possible good consistent with the interest of each and every other resident of the State. This is following out in letter and spirit the principles lying at the foundation of the American government.

This being so, it is the bounden duty of every patriotic resident of California to lend all possible aid and comfort to the officials charged with the performance of this duty. We will go further and say it is the bounden duty of every man to aid these officials. We are ready to go one step more and insist that every resident of the State of California who is at once patriotic and honest and will give diligent attention to the study of the subject will lend aid and comfort in every way possible.

From Skitskou to San Diego and from the Sierra to the sea there seem to be sundry and diverse persons unable to comprehend the full force of the fundamental principles of government set out above. They are not for one minute for the greatest good to the greatest number in this matter of the highway, but for the greatest good to the least number, and that is the "one" that stands for each individual's ego. It is astonishing how many of us are possessed with this improper sentiment. Many would build the road not according to the provision of the law, and they would have the officials betray the public by building the road not on the most direct, but along the most indirect route, not along the most practicable, but the most impracticable and the most costly route. And for what purpose? That the road may run along the garden of some farmer or grocerman or real estate man so as to accommodate him and his business.

That spirit is neither wise nor right. It is not wise because it is impossible. The roads cannot pass every man's dooryard, nor can they reach every little community in the State. There is not money enough in California to construct a system of highways so complex and all-embracing.

The only right and the only wise rule to follow is that marked out by the law providing for the construction of the highway. It is the privilege and the duty of every person residing in the State to see that the engineering department shall select these routes, lay out these roads and build them so as to give the people of all the State as a whole the best road service to be had for the money. That will be done by running the road in the most direct and practicable courses through every county in the State. It is provided by the law that the county seat of each county through which the route runs shall be served by the highway and that branch roads shall be built from the main line to such county seats as the land does not pass through.

Now we submit that this is not only a proper policy as provided by law, but an exceedingly liberal one. It can be easily supplemented by separate action on the part of the several counties, completing the State system by numerous local branches so that every community in the State and almost every resident in the State shall be provided with a good road.

To divert the highway from the route provided by law would be extremely wasteful of the people's money. The main highway must be of sufficient width and stability to accommodate the great traffic sure to follow the trunk line. The branches may be smaller, tapering down to very narrow lines where they reach small communities. Behold the tree of the forest. The trunk is large, the branches smaller and so on out to the smallest twigs in the arboreal system. That is Nature's way, and Nature is never wasteful.

Let each resident of the State see that the State law is duly regarded, and that the economical law of nature is kept in mind in building the State highways.

VOX POPULI.

At the election on Tuesday, to quote the language of a steamed contemporary, "the people proved their capacity to legislate." That is to say, one-sixth of the registered voters proved their capacity to legislate for the other five-sixths as well as themselves. The other five-sixths stayed away from the polls. They neglected to avail themselves of the inestimable privilege of the initiative. Some of them said that they had not the time to give three hours to the perusal of the six ordinances and the arguments for and against their adoption. Some of them said that they had read all the literature mailed to them on the subject and knew less about the proposed trade of harbor lands to vote intelligently on the subject. Some of them said that the location and building of a new City Hall did not interest them. Some of them said that they did not care about a tuberculosis test being applied to cows, for they did not drink milk themselves and declined to avail themselves of the law-making privilege accorded them by "progressiveism."

On the whole, has not representative government some advantages?

UNCLE WALT.

The Poet Philosopher.

Let us sit a while discussing politics, O friend of mine! Since the whole world seems affusing, it is time we fell in line! Let us give the trustee a trouncing, since they're cussed on every hand; let us thrash around denouncing things we do not understand. Let our fervent, tireless footing stamp the public car be discomfited; they are best at elocuting who are best supplied with wind, and the less we know of topics all the louder should we talk, till from Greenland to the tropics we shall give the world a shock. Let's neglect our work and linger in the clanging marketplace, pointing eyes a scornful finger at the statesmen in the race; saying bitter things of strangers who have never done us harm, pointing out the nation's dangers, viewing ever with alarm. Let us talk and keep on talking till we chance to disagree, when I'll try to knock your block in, and you'll clamber over me; let us keep our lungs in focus like a pair of dippy dubs, till the peddlers come and soak us with their luscious vitae clubs.

WALT MASON.

(Copyright, 1912, by George Matthew Adams.)

THE PANAMA CANAL.

HOW MUCH GOOD WILL IT DO US?
And How Will Our Commerce Grow If We Have No Ships to Carry It?

[Current Literature.] In a little over a year it is quite possible that ships will be passing through the Panama Canal from ocean to ocean. Standing on the Gatun locks and gazing in one direction, toward the Atlantic, Secretary Knox saw six miles of completed canal. Gazing in the other direction, he saw the basin of the Gatun Lake, nearly ready to receive the floods from the Chagres River, stretching twenty-four miles toward the Pacific. At the other end of the lake is the Culebra Cut, most of it down to the proper depth. The digging is nearly completed. What remains to be done is to grade the sides and remove the earth that has been sliding down into the cut. Between the cut and the Gatun Lake, nearly ready to receive the floods from the Chagres River, stretching twenty-four miles toward the Pacific. At the other end of the lake is the Culebra Cut, most of it down to the proper depth. The digging is nearly completed. What remains to be done is to grade the sides and remove the earth that has been sliding down into the cut. Between the cut and the Gatun Lake, nearly ready to receive the floods from the Chagres River, stretching twenty-four miles toward the Pacific. At the other end of the lake is the Culebra Cut, most of it down to the proper depth. The digging is nearly completed. What remains to be done is to grade the sides and remove the earth that has been sliding down into the cut. Between the cut and the Gatun Lake, nearly ready to receive the floods from the Chagres River, stretching twenty-four miles toward the Pacific. At the other end of the lake is the Culebra Cut, most of it down to the proper depth. The digging is nearly completed. What remains to be done is to grade the sides and remove the earth that has been sliding down into the cut. Bert Dingley and Teddy Tetlow, all the bookies have to do to bring in the Los Angeles money is to quote liberal odds on these two.

CHAMPS DEFEAT YANKEES IN THREE SHORT INNINGS.

Rap Ford Hard for Four Runs in the Third Round and Score Two More Later On—Combs Falls Down in the First but Recovers—Naps Get Two Very Easy Games from White Sox.

[SPECIAL BY FEDERAL WIRELESS-TELEGRAPH LINE]

ON ANGELES TIMES BUREAU, New York, May 29.—With the score 7 to 4 in favor of the world's champions at the end of the sixth inning, a heavy shower dropped in on the ball players and ended proceedings for the day.

It looked for a while as if the Yankees would put over a winner. They slammed "Iron Man" Jack Combs for a total of four hits in the first inning. This was a stolen base thrown in, gave them three runs.

The Athletics got next to Ford's delivery in the third inning and sent four rallies over the plate. This was enough for the Athletics. The Yankees started the attack in the sixth, but Combs put the brakes on and pulled it up short.

The score:

RED SOX GRAB TWO. SHOW SENATORS UP.

[Special by Federal Wireless Telegraph Line.]

BOSTON, May 26. — The Red Sox added two games to their string of victories, with Washington as their victim. The score in the first game was 21 to 3, and in the second game, 12 to 11.

The playing of both teams would have done credit to the second-division teams of the P.S.A.L., but as exhibitions of big-league ball—well, the English language is vigorous and ex-

CAL EWING CANNOT GUESS THE TROUBLE.

Cal Ewing, one of the owners of the San Francisco ball team, arrived in this city yesterday for a two weeks' visit, and set on the bench yesterday and watched the locals wallop his hired men. Cal is just about the same as formerly, but is a little more subdued, probably owing to the fact that his team is in the dumps.

"I do not know why we cannot win our share of the games," said Cal looking anxiously at Ken Berry, who was grinning at his success in getting another game. "It is nothing more than another game against us," and that is about all Cal would say about the team.

TWO GAMES TODAY; DELHI IS TO PITCH.

There will be two ball games here today in honor of the holiday, and both will be played at Washington Park. The morning game is to be called at 10 o'clock, and the pitcher is to be Fletcher for Los Angeles and Baker for San Francisco.

In the afternoon Delhi will make his first appearance for the Seals and Halls will twirl for the Angels.

PATTERSON IS KNOCKED OUT.

Wrenches Ankle While Sliding to Second Base.

Four Swats in Third Inning Make Three Runs.

Raleigh's Pitching Too Much for the Oaks.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, May 29.—(Exclusive Dispatch.) Happy Hogan's warriors have another breathing spell, for 5 o'clock this afternoon found them still leading in the Pacific Coast League pennant race.

It wasn't a victory unmitigated with regret—the 5 to 3 score against the Athletics added by some things. Patterson is a stickler always to be in the very first inning of the game, and had to be carried to the clubhouse by two of his team mates.

Patterson is a stickler always to be in the very first inning of the game, and had to be carried to the clubhouse by two of his team mates.

Luckily for Hap, he has a man in Hap who can be used in almost any position, and he will fill in at the initial sack until the Athletics are able to report.

Four nice drives that were bunched in the third inning, along with a base on balls, gave the Athletics three runs as a starter, and the other two that they gathered at later stages helped them win.

In the third and fourth innings, the Athletics added by some things. Patterson is a stickler always to be in the very first inning of the game, and had to be carried to the clubhouse by two of his team mates.

Every step lessens a horse's energy for the day. At the end of the day he is a tired animal. Through the day he must have his rest spells—his recesses from hauling.

IN THE BIG LAY-WORLD

By JULIAN JOHNSON.

A Catholic Theater is to be established in New York. It will be the first of its kind in the country, and is to be operated on a large scale.

Archbishop Patrick, who is entirely in sympathy with the movement which seeks to secure for New York a theater where plays, Catholic in tone, will be produced. There is no agency more potent for good or evil than the theater, and the effect of plays of a high moral character on the people cannot be overestimated. There is particular need at this time for a good play, and any steps in this direction should meet with the approval not only of Catholics, but a self-respecting public.

On the continent there are several Catholic theaters. In Paris, the Catholic League, composed of Catholic women, has a theater of its own. It is called the Renaissance Theater and is very successful. The plays produced are exceedingly clever, and the theater is filled at every performance. In Spain there is the Theater Laura in Madrid. This theater is patronized by the royal family. Not only does the Spanish Catholic League maintain its own theater, but it conducts popular-priced performances at so low a price that the poorest person in Madrid can afford to see the play. In Vienna, the Countess von Watterstrassen is starting a movement similar to the one in New York City.

This movement is headed by Miss Eliza O'Brien, whose play, "The Dear St. Elizabeth," will be the first play produced in the Catholic Theater. This play has received great praise and will mark an epoch in dramatic art. Miss O'Brien is not only the originator of this theater for New York City, but is also the founder of the Daughters of the Faith, an organization of Catholic society women. Miss O'Brien, who is questioned regarding the scope of this work, said that this theater is not to be on narrow lines. The main point is that the plays produced at the Catholic Theater must be worthy of presentation, and preserve the reverence due to serious religious subjects. Expert Catholic opinion will correct the few minor details, and an endeavor will be made to give the exact truth. The basis is the same as that of the attitude of the church on morality as explained in the new Catholic encyclopedia. "When the nations were Catholic, public opinion was predominant in the teaching of the church. In these days it is largely formed by the press; and since the press as a whole views the theater with suspicion, the standard proposed is inevitably very different from what the church would desire."

The religious play is much in vogue now as evidenced by the success of "The Miracle," which had an extended run in London. Besides this, there has been the great success of the Robert Hood play, "The Third Floor Back." Kennedy's play, "The Servant in the House," and Miss Maude Adams in "The Maid of Orleans."

The name under consideration for the Catholic Theater is at present "The Catholic Theater." At the same time, it is being considered whether it will be leased on Broadway, and then a theater of their own will be built and gradually the movement will extend to other large cities throughout the country.

The all-summer runs in New York City this year will include: "Bought and Paid For," The Playhouse; "The Merry Widow," The Playhouse; "The Merry Widow," The Playhouse; "The Merry Widow," The Playhouse.

MANY ENTRIES FOR MT. WASHINGTON TOURNEY.

THE entries for the Mt. Washington tennis tourney, which is to begin this morning at 9:30 o'clock, includes the largest number of young racket wielders that has ever been brought together in the South.

Play is to continue until Saturday, when it is expected that the finale in all events will be run off. The players have been divided into three classes—college, high school and grammar school. An unusually high class set of trophies has been put up for the winners and the competition promises to be warm even if the playing is not of the highest grade.

The main purpose of the tourney is to unearth new tennis material and the entry list indicates that the tourney will be a success from that standpoint, at least.

The complete list of entries follows:

THE ENTRIES.
College division: Men's singles—Seay, Occidental; Ellis, P. Barker, U.S.C.; Kenneth Fisher, U.S.C.; C. W. Hall, U.S.C.; V. H. Dixon, U.S.C.; Huntington, Occidental.
Ladies' singles: Miss Kincaid, U.S.C.
Men's doubles: Seay and Huntington, Occidental; Ellis and Barker, U.S.C.; Hall and Dixon, U.S.C.; Newell and Weller, U.S.C.; Law, U.S.C.
Ladies' doubles: Miss Kincaid and Miss Weller, U.S.C.
Mixed doubles: Huntington and Barker, Occidental; Newell and Miss Kincaid, U.S.C.
High school division: Men's singles—George Clemens, Harvard; J. Garner, Harvard; J. D. Baker, L. A. Polytechnic; Harold Huber, L. A. Polytechnic; E. R. McCormick, Long Beach; C. W. Thode, Long Beach; Ralph Sanders, Hollywood; M. Hawley, Manual Arts; A. Barker, A. H. High; E. Dugan, L. A. High.
Ladies' singles: Evelyn Stephenson, San Pedro; Ruth Brown, Glendale; Edith Secor, L. A. Polytechnic; Eunice Secor, L. A. Polytechnic; Clarence Winnie, L. A. High School; Mabel Manner, Santa Ana; Jessie Griese, Westlake; Elsie Morse, Pasadena; High School; Miss C. Standish, L. A. High School.
Men's doubles: George Clemens and John Garner, Harvard; John Garner and Foster, Occidental; Harold Blakesley and J. D. Baker, L. A. Polytechnic; E. R. McCormick and C. W. Thode, Long Beach; M. Hawley and Bill Russell, Manual Arts; Domaschens and Godshall, L. A.

Rouge: "A Battered by the Wheel," Thirty-ninth Street. "Two Little Brides," Casino; "The Rose-Maid," Globe; perhaps "Kismet," Knickerbocker.

Fred Stone and Dave Montgomery are already rehearsing their next season's play. They do not expect to open until the usual time, but the new tradition, a production of extraordinary difficulty, requiring long practice, Elsie Janis and Joseph Cawthorne may be in their company next year.

Mrs. Fiske has gone to Europe for the summer. This will be her first real vacation in five years.

Carlyle Moore, formerly at the Burbank Theater as juvenile, has written a comedy, "The Kleptomaniac," which Cohan & Harris will produce next season.

Sarah Bernhardt made the journey from Paris to London, expressly to recite a ballad at the benefit for the Tonic Benevolent, King George and Queen Mary were present. L'imortelle was tumultuously received.

George Cohan is again positively assuring his friends that he will cease to act after "next season." As he disbelieves in gambling, however, he refuses to make bets upon the subject.

Maude Gilbert is playing the leading role in "Ready Money," Jimmy Montgomery's comedy, which, after being generally rewritten, has proved one of the hits of the late season, at the Court Theater in Chicago.

Walker Whiteside will next year introduce to America Trill, called the Duse of Japan, and Sojin Kamiyama, from the Imperial Theater of Tokio. They will be supported by an American company, and will play in English a repertoire of Shakespeare, Sarle plays produced at the Court Theater in French will be given.

Virginia Pearson, who played the Vampire in "A Fool There Was," at the Mason, is now appearing in a piece of absolute truth, "The Chicago Club." She is playing a wait, in "The Divorcee."

The Italian translated Pinero's "Preserving Mr. Pannure," and tried it at Milan, last week. It was received with howls and yells of disapprobation. There was no second performance.

Most Singer has decided to star George Dandrell of this city in a new opera by Victor Hollander next season.

David Belasco has promised a brand new play, by himself, at his new theater in New York City, on Christmas Day. Subject and title not announced.

Jan Kibbel called for Hamburg May 16. His American tour is said to have netted him \$142,000.

Maxim Gorky, at Capri, is writing the libretto of an opera of Russian peasant life.

Henry W. Savage, who has been going steadily around the world ever since leaving Los Angeles last winter, is expected to arrive home June 8.

An "Opera Comique" organization, singing in English, and affiliated with the Metropolitan Opera Company, is a probability for New York next season.

On the Courts.

High: George Harter and McComb, U.S.C.
Ladies' doubles: Elsie Mays and Mildred Sulder, Manual Arts; Ruth Brown and Glendale; Edith Secor and Eunice Secor, L. A. Polytechnic; Jessie Griese and Mildred Dawson, Westlake; Elsie Morse and Miss Kincaid, U.S.C.; Francis Martin and Clarence Winnie, L.A.H.S.

Mixed doubles: Johnson and Garner, Occidental; P. M. P. Barker and Sarah Taft, U.S.C.; Ruth Brown and Frank Little, Glendale; J. D. Baker and Eunice Secor, L. A. Polytechnic; McCormick and Barker, Long Beach; Elsie Morse and F. C. Hunter, Pasadena; Barber and Miss Stauden, L.A.H.S.

Grammar school division: Boy's singles—Frank Winnie, Berendo; Raymond Johnson L.A.M.A.; Lewis B. Polk, L.A.M.O.; Leslie Savage, Berendo; Wyckoff Westover, Normal; Larry Hester, Grant school; Oscar Ruff, Grant school; Houston Peterson, Berendo; Paul H. Granger, Harvard; G. Ramiah, Harvard; Paul Kinney, Avenue 21; Ed Polakoff, Grant school, Pasadena; Howard McDonald, Thirtieth street; John Gilliland, West Vernon avenue; John Cummings, West Vernon avenue.

Boy's doubles: Raymond Johnson and Lewis B. Polk, L.A.M.A.; Frank Winnie and Frank Darby, Berendo; Oscar Ruff and Larry Hester, Grant school; Morris Ackrum and Houston Peterson, Berendo; Wyckoff Westover and M. Earl, Normal; Howard McDonald and Joe Smith, Thirtieth street; John Gilliland and John Cummings, West Vernon.

Girls' doubles: Nora Miller and Constantine Hunter, Berendo; Elvira Well and Thelma Rhodes, Thirtieth street.

TODAY'S PROGRAMME.
The drawings for today follow:
College division: Men's singles—Seay and Hall, Barker and Chaffee, Newell and Huntington, Dixon and Pober.
Ladies' singles—Miss Kincaid and Miss Weller.
Men's doubles—Seay and Huntington, Occidental; Hall and Barker, U.S.C.; Newell and Weller, U.S.C.; Law and Peterson, Berendo; Wyckoff Westover and M. Earl, Normal; Howard McDonald and Joe Smith, Thirtieth street; John Gilliland and John Cummings, West Vernon.

Girls' doubles: Nora Miller and Constantine Hunter, Berendo; Elvira Well and Thelma Rhodes, Thirtieth street.

Mixed doubles—Huntington and Barker, Occidental; Newell and Miss Kincaid, U.S.C.

High school division: Men's singles—George Clemens, Harvard; J. Garner, Harvard; J. D. Baker, L. A. Polytechnic; Harold Huber, L. A. Polytechnic; E. R. McCormick, Long Beach; C. W. Thode, Long Beach; Ralph Sanders, Hollywood; M. Hawley, Manual Arts; A. Barker, A. H. High; E. Dugan, L. A. High.

Ladies' singles: Evelyn Stephenson, San Pedro; Ruth Brown, Glendale; Edith Secor, L. A. Polytechnic; Eunice Secor, L. A. Polytechnic; Clarence Winnie, L. A. High School; Mabel Manner, Santa Ana; Jessie Griese, Westlake; Elsie Morse, Pasadena; High School; Miss C. Standish, L. A. High School.

Men's doubles: George Clemens and John Garner, Harvard; John Garner and Foster, Occidental; Harold Blakesley and J. D. Baker, L. A. Polytechnic; E. R. McCormick and C. W. Thode, Long Beach; M. Hawley and Bill Russell, Manual Arts; Domaschens and Godshall, L. A.

Ladies' doubles: Elsie Morse and Miss Kincaid, U.S.C.

Aida Overton Walker.

FIFTY GOLF EXPERTS IN DEL MONTE TOURNAMENT.

(BY DIRECT WIRE TO THE TIMES.)

DEL MONTE, May 29.—[Exclusively.] Golf enthusiasts have already entered the Del Monte golf tournament, which opens here tomorrow under the auspices of the Del Monte Golf and Country Club. The prevailing weather is perfect for the sport and the new links are in excellent condition.

At 9 o'clock tomorrow morning the qualifying round for men, over eighteen holes, medal play, will open the tournament. There will be a handicap match play combination for both men and women, with trophies for best score in qualifying rounds on Saturday.

Vincent Whitney of the San Francisco Golf and Country Club, who went on course this afternoon, says that the green is in perfect condition. Miss Alice Warner is in better form than she has been in several weeks, and her admirers predict that she will make excellent scores.

Following is the list of entries: Women's singles: P. F. Fierick, Claremont Country Club; W. L. Teasby, Del Monte; C. W. Leigh, Larchmont; William L. Goodwin, Claremont Country Club; D. D. Baker, Occidental; F. C. Phelps, L. A. Redman, Claremont Country Club; F. McCormack, Claremont Country Club; W. L. Teasby, Del Monte.

In the javelin throw, which American named two prospective competitors. Thirty-three entries were made for the 100-meter sprint and sixteen entries for the marathon race.

Following are the number of American entries for each athletic event at the Olympic games:
The 100-meter dash, thirty-three; 200-meter dash, twenty-four; 400-meter run, forty; 800-meter run, seventeen; 1500-meter run, twenty; 5000-meter run, twenty-two; 10,000-meter run, sixteen; Marathon race, sixteen; 10,000-meter walk, six; 150-meter hurdles, twenty-two; hammer throw, nine; 10,000-meter right-handed shot put, six; best hand shot put, seven; left and right-hand discus throw, nine; best hand javelin throw, two; best hand discus throw, fifteen; left and right-hand javelin throw, two; hop, step and jump, ten; running broad jump, nineteen; pole vault, twelve; standing high jump, fourteen; standing broad jump, fifteen; 400-meter relay race, twenty; 1600-meter relay race, seventeen; 3000-meter team race, twenty-four; pentathlon, eight; decathlon, eight; 2000-meter cross-country race, twenty-three.

WELLS TO MEET MCGANN.
NEW YORK, May 28.—If Bombarrier Wells fights here it will likely be with Hugh McGann, the Indianapolis heavyweight, who wants to fight any man in the world, will get the job. Bombarrier has told McGann's manager that Hugh would do for a starter. Several clubs have the match under consideration and are trying to see what it is worth.

Hap and Temple.
There's no talking about this young person Temple signed by Hap Hogan. It looks at first sight like an attack of mild form of "buggy" but Hap has opened the doors of his baseball founding asylum many a time, and this is a wall who turned out to be a star.

McCarthy Gets Action.
SAN FRANCISCO, May 28.—[By A. P. Night Wire.] Luther McCarthy, the heavyweight who knocked out Carl Morris, probably will be matched for a twenty-round fight in this city next month. Promoter Billy Kyns, holder of the June permit, has asked McCarthy to meet the winner of the soldier elder—Charles Miller four-round bout Friday night.

CAMP-FIRE TALES.
A real old-fashioned "camp fire" with the traditional clay pipes, hard-tack and codfish, will be held tonight at Luna Park, and the members of every Grange post in this city and adjacent towns have been invited to attend. Stories of personal army life, extra attractions for children have been arranged for at the park today. Musical attractions for the day will be rendered by the Royal Marine Band.

THREE ARE INJURED IN CRASH ON CURVE.

SWINGING around a curve at speed and Olive streets early last night, two cars of the First and Third street loop came together with a crash that could be heard for several blocks and which resulted in the serious injury of three passengers who were riding on the steps of the automobile.

W. L. Carpenter, a fireman connected with Truck No. 2 and living at No. 113 North Bunker Hill avenue, was caught between the cars and pulled for more than twenty feet. He was picked up in an unconscious condition. An examination showed that he had sustained six severe cuts on the head together with deep lacerations over the left eye and ear.

William Connelly, shipping clerk living at No. 112 South Bunker Hill avenue, was thrown from the rear seat. He sustained a laceration of the forehead and contusions on the back and it is believed that his pelvic bone is broken.

T. G. Klat, an ironworker living at No. 1675 Rockwood street, was cut on the back of the right hand and his leg was torn. The injured were hurried in police automobiles to the Receiving Hospital, where their wounds were dressed.

According to statements by witnesses, the car No. 11, in charge of Motorman Allen started at full speed on the morning, going west on Second street and, having the right of way, made no attempt to stop at the intersection of the two streets.

At the same moment, car No. 24, in charge of Motorman Wilcox, took the curve en route to the center of the business district. As the tracks are not wide enough to allow both cars to pass at the same time, the result was what is known in railway parlance as a "side-swipe."

Franklin, who was standing on the front steps of the outgoing car, was the first victim of the impact and was moved from instant death by falling between the passing tracks.

Connelly and Klat were riding on the rear step and were hurled to the pavement.

T. A. Mathis, No. 115 South Olive street, declared that the incoming car was running at a high rate of speed. The police were hampered for a time in making an investigation because they were unable to ascertain the names of the crew.

During the excitement incidental to the accident, another car of the same line ran into the police patrol wagon at Fifth and Hill streets, despite the ringing of the police siren to enforce a right of way. As a consequence, the authorities are looking for G. L. Hoffer, a motorman, who is said by the officials of the company to have been in charge of the car at the time of the collision.

Neither the car nor the automobile was seriously damaged, but the question of right of way will be tried in Police Court as soon as the alleged offender is apprehended.

Less than fifteen minutes later, Florante Valle, No. 3128 Clinton street, was thrown from a car at the corner of Macy and Anderson streets and sustained lacerations on the left thigh in addition to the loss of several teeth. He asserts that he was forced to ride on the steps of the car owing to the crowded condition. His injuries were treated at the Receiving Hospital.

Formerly of Whittier, where she was a teacher in the public school before her marriage to Rev. Wastenberg and also, as Miss Wolfe, was matron of the girls' department of the State school in Whittier.

In Bishop Burt's quadrennial report of work in Europe he made particular mention of the new impetus given to the deaconess work. All the deaconesses in Europe are trained nurses and the bishop called the attention of the Methodist church to the fact that no better nurses can be found anywhere to care for Americans who fall ill while traveling in Europe than these deaconesses in the homes and hospitals established in Zurich, Hamburg, Frankfurt, Nuremberg, Berlin, Vienna, Copenhagen, Stockholm, St. Petersburg and other great centers.

Testimonial to Musician. The testimonial concert to be given Friday evening at Ebell Clubhouse for Mrs. Edith Arnold Schulenburg promises to be an event of interest in club circles. The program shows the names of such fine musicians as Grace Widney Mabee, Charles Farwell Edson, Frank H. Colby, J. Homer Gruen, Ethel Coleman, Mrs. Selby, Gertrude Ross, Dr. and Mrs. Eugene E. Davis, the Dominant Quartette and others familiar to the local world of music.

This testimonial, given under the auspices of the Ebell and Matinee Musical Clubs and the Southern California Music Teachers' Association, indicates the feeling of sympathy for Mrs. Schulenburg who, by reason of an accident, has been ill for a period of several months, undergoing expensive medical and surgical treatment and utterly unable to continue her work.

The club women hope to make this testimonial to one of their number a successful one in a financial way as it is sure to be in a musical sense.

College at Constantinople. Dr. Mary Mills Patrick, president of the American College for Girls at Constantinople, is in this country for a short visit. At present there are 250 students, including Bulgarians, Armenians, Greeks, Persians, Turks, Jews, Hungarians and Germans in the college.

The girls live in dormitories after the American plan, money having been subscribed for the college. Mrs. Russell Clark, Helen Gould and John D. Rockefeller. The students wear American dress with caps and gowns of the Mohammedan girls wearing veils within the college.

Amateur Club Outing. The members of the Amateur Club of the Y.W.C.A. enjoyed a house party last Saturday and Sunday. Every spring these young business and professional women, so earnest in their work and care-free in their recreation, spend a day or two together at the beach or in the mountains. On this particular occasion the place of rendezvous was "Rockyview," the charming and hospitable home of Mr. and Mrs. A. N. Carter, near the mouth of the Little Santa Anita Canyon at Sierra Madre. During the day the time was spent largely lounging about the house, reveling in the beautiful view of the San Gabriel Valley and the distant Puente Hills, and walking over the mountain trails and up the canyon, while in the evening the big comfortable fireplace in the living room was the center of attraction.

The club hopes before long to have a country home of its own. For some time the members have been making plans and raising money for this purpose, but a site has not yet been selected. The supply of funds is somewhat limited, and while the club does not solicit outside contributions, it is grateful for contributions that may be offered, and hopes that some good friend may wish to donate a suitable plot of ground on which a comfortable vacation home may be built. In former years outings have been given to a few young women, not members of the club, who were in need of rest, but whose finances would not permit them to procure it, and when home is built it is the intention of the club to extend its help farther in this direction.

Women Leaders. It was said that when the name of Frank Garibaldi, delegate from the Los Angeles chapter of the I.W.O.F. to the Minneapolis conference, was called, the great audience in the hall burst into a thunder of applause.

Garibaldi is the granddaughter of the late John D. Rockefeller, one of the twenty-five women delegates to the conference. Of this number, Mrs. Garibaldi is from California, Mrs. Lavinia Alexander from Minnesota, Mrs. D. Wastenberg of Berkeley, and Mrs. D. Wastenberg of Berkeley.

THREE BACKS ON PAIS. (Continued from First Page.)

Who have seen service in the military and the fact they now seek to be in the service of the I.W.O.F. yesterday included G. Murgrove, who was a member of the House of Chiefs of Police, and a night demonstrator, an official court reporter, the incendiary speeches of the demonstrators on the street corners, a transcript of the trial in his possession when he was arrested, and James, who acted as a guard for the property when the demonstrators were being removed from the property.

Secret service agent of the Department of Justice, who was arrested on Tuesday in San Francisco.

to state that Darrow asked him if, in his opinion, Bain would "stand pat," and that he (Franklin) had replied there was no question about it.

"I told Mr. Darrow that Bain's wife had a great influence over her husband, and that she would see to it that he kept his promise."

"And what did Mr. Darrow say, if anything?" replied Franklin.

"He said: 'That is good,' or words to that effect," replied Franklin.

After Bain had been sworn in as a permanent juror, Franklin said, the juror's wife visited him several times at his office for about two years, attended court almost every day and felt very lonely without her husband.

"I told her I thought it was his duty to go to court," said Franklin, "and I asked her if anyone had approached her to engage in conversation. She declared several times that she would take up the matter with the proper parties."

"PICKED SAFE MEN." Franklin said that as he got copies of the list of voters drawn on the special panels he would discuss them with Darrow with a view of ascertaining whether any of them could be "safely" picked for the jury.

"He said: 'I would like to see the alleged bribery of Bain. Franklin replied he had known Lockwood very intimately for about twenty years, but that he did not know the alleged bribery of Bain."

"Did you have a discussion with Mr. Darrow concerning Lockwood?" asked the assistant prosecutor, after laying the proper foundation for the question. The witness replied he did.

"I told Mr. Darrow," continued the witness, "that I thought it was his duty to talk with Lockwood and that his name might be drawn in the jury list."

"Well, what else did you say, if anything, at that time?" queried Ford.

"I think I said that, even if Lockwood would not take it, he would say so and keep the matter to himself."

Ford tried to show what the witness meant by "keep the matter to himself." The witness replied he did not know what the witness meant by "keep the matter to himself."

"Did you have any other conversation with Darrow as to jurors you would pick?" asked the assistant prosecutor.

"Yes, I did," said Franklin. "These talks occurred on various occasions in his office, but I do not fix any dates at this time. I know there are some prospective jurors I could talk to in my office."

Franklin was next asked as to his series of visits to Lockwood. On the first occasion the witness said Lockwood came to the door in his night shirt and refused to talk business. A tentative engagement was made for the following week.

"DONE IN CONFIDENCE." "When Lockwood came to my office," testified Franklin, "I told him I wanted to talk to him privately; that it would not do to have the subject of the conversation leak out. He said it was all right, and that, under no circumstances, would he repeat anything I told him in confidence. I then told him I was working for the McNamara defense. I said: 'We are both getting old and now is the time to use our brains more and our hands and feet less.' He agreed with me."

"I told Lockwood that I had a proposition to make to him," continued Franklin. "I said I would give him \$500 in advance and \$2000 more when the McNamara case was finished. If he got on the jury and voted for an acquittal, I would give him \$500 more."

"He wanted more than my word, that this amount would be paid," said Franklin, "so we arranged another meeting. I told Mr. Darrow that I had seen Lockwood. Mr. Darrow asked me if I thought Lockwood could be trusted, and I replied 'I thought he could.'"

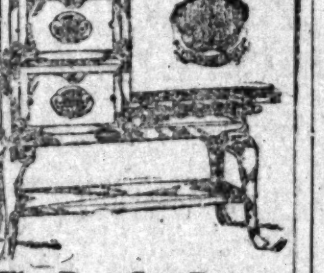

Just before the noon adjournment Franklin gave an account of meeting Darrow and his friend, Lincoln Griffith, at the Alexandria Indian Station. The witness said he refused an invitation to dine, but accepted a drink.

"Mr. Darrow took a paper from his pocket and opened it up," said Franklin. "He said: 'That looks better, doesn't it?' He called my attention to the name of George N. Lockwood on that paper. He told me to go to the list and go to the office. I told him I had taken all my papers from my office to his at his own request. He then told me to get hold of Mr. Russell, his confidential clerk, and have the safe opened so I could get the operative's reports."

Spring in Yosemite Valley. Most of the trails and roads to the Big Trees are open, the climate is clear and the whole valley invites you to come. Leave Los Angeles at 2 p. m. and enjoy the scenic dining car service. The easy way—SOUTHERN PACIFIC.

Memorial Day Excursions. Reduced fare round trip tickets will be sold between all points May 29 and 30, and return May 31, 1912, account Decoration Day.

BROADWAY SALE REPORTED.

One Hundred and Sixty-eight Thousand Paid for Forty-foot Lot Between Third and Fourth.

For a reported consideration of \$165,000 Herbert E. Barcliffe transferred yesterday to J. A. McKinley, attorney for the Southern Pacific.

Railway, property on the east side of Broadway about half way between Third and Fourth streets, and having a frontage of forty feet by a depth of 165 feet. The site is improved with a two-story brick building which is held under a fifty-year lease by Harry Gray of Pasadena.

The deal was concluded through the agency of W. B. Merwin & Co.

The lot will within the next two years be improved with a substantial fireproof building of four or more stories, such an improvement being provided for in the lease covering the property, and which has forty-five years to run. McKinley acquires fee to the land only by the transaction just consummated.

Distinctive Silver for the Bride

It might truthfully be said that Brock & Company's display of silver is an art exhibit of the world's master productions.

In addition to the many new ideas in silver shown in Los Angeles for the first time—our display includes more than a dozen distinct and complete patterns in sterling flatware—the handiwork of the most renowned artists in the history of silver designing.

To those who contemplate the purchase of wedding silver—the gift next in importance to the wedding ring itself—this incomparable exhibit will prove of surpassing interest.

We welcome you to come to our store for wedding gift suggestions. Nowhere else in the West is to be seen so comprehensive a showing of the new, the unusual and the artistic.

Brock & Company are exclusively introducing in Los Angeles the latest style of engraving for wedding stationery—known as "Brock & Company Text."
